The Riksbank transfers SEK 3.9 billion to the Treasury

The General Council of the Riksbank has, in accordance with the Sveriges Riksbank Act, submitted a proposal to the Riksdag (the Swedish parliament) regarding the allocation of the Riksbank's profits for the financial year 2021. The General Council proposes that SEK 3.9 billion be transferred to the Treasury.

This proposal has been calculated in accordance with the guidelines applying since 1988. According to the guidelines, 80 per cent of the past five years' average profit, after certain adjustments, shall be transferred to the Treasury to contribute to strengthening public finances. The profit is calculated excluding exchange rate and gold value effects, but including the price effects reported in the revaluation account on the balance sheet.

A detailed account of the calculation of the profit allocation is presented in the General Council's submission to the Riksdag: 2021/22:RB2 The General Council of the Riksbank's proposal for the allocation of profit 2021 and so forth.
